ADDRESS

I'm a student studying Aerospace Engineering at the University of Manchester. I have work experience in the retail, catering, and commercial transport industry. I am honest, reliable and my past roles have required good timekeeping and a positive attitude in high pressure environments. My aim is to get relevant internship experience whilst I am at university so I can graduate with a greater understanding of the engineering industry and what companies look for in engineering graduates.

EDUCATION

School (2006-2010) – GCSE

English – Grade C

Maths – Grade C

Engineering Science – 9 Distinctions, 6 Merits

Physics – 15 Distinctions

Maths – 6 Distinctions, 9 Merits

University of Manchester (2015-Current) BEng/MEng

Aerospace Engineering with a Foundation Year

WORK EXPERIENCE

Penventon Park Hotel (May 2009)

I had 2 weeks work experience at the Penventon Park Hotel in Redruth, Cornwall. My primary role was an assistant kitchen porter and an assistant to the restaurant manager and the head chef. I carried out jobs including washing up, cleaning/tidying and basic food preparation. My secondary roles at this work placement were assisting the room housekeeping team, the reception, and the functions department.
